ezoBord Geo Clouds provide an elegant addition to any open area and can be customized through the use of different geometric shapes and a wide array of standard colors.

### A new generation surface material that both absorbs noise and is fully customizable.

Stylish ezoBord Geo Clouds are a series of sound absorbing suspended panels that redefine open interior spaces.

Geo Clouds are available in a wide variety of colors, profiles and shapes with custom shapes and prints also available to fully customize to your installation. Geo Clouds are adjustable to various heights and angles and can be installed from deck ceilings, drywall, standard T bar suspension systems or mounted to walls.

Made with recycled plastic water bottles.
